

## Patient Face Mask Requirement Notice

Beginning Monday, May 11<sup>th</sup>, 2020, All Addiction Medical Solutions facilities are requiring all patients and visitors to wear a face covering or mask to help slow the spread of COVID-19.

Patients and visitors are asked to bring their own face covering or mask to wear.

If a patient or visitor does not have a mask, AMS will make every effort to provide one based on current supply availability. If there is limited or no availability to provide a face mask patients will be turned away until proper face covering is obtained.

This updated masking guidance is based on recommendations from the [Centers for Disease Control and Prevention \(CDC\)](#) and consultation with AMS Public Health Consultant .

Addiction Medical Solutions continues to assess and prioritize personal protective equipment needs to ensure the safety of its staff, patients and visitors.

CDC provides [guidance](#) on how to make a cloth mask and wear it properly.
